Introduction:

At Banpu, we not only recognize that our business operations impact on the environment, but also believe in positive thinking and attitude towards environmental benefits for all. We are committed to taking an environmentally responsible approach to all our business activities.

Policy Objective:

For this policy we intended to;

- 1) Minimize the negative effects
- 2) Enhance the quality of environmental whenever reasonably practicable
- 3) Conserve natural resources

Policy Scope:

This policy shall be integrated and applied to Banpu and our subsidiaries where we have management control and will also be applied for internal consideration during due-diligence and/or mergers and acquisition process, where appropriate. Moreover, this policy should be promoted to our joint ventures and throughout supply chain.

In implementing this policy, we establish measurable indicators and Quality Assurance Review (QAR) system to monitor and review performance in order to ensure that this policy's goals and targets would be achieved. HSEC-Corporate would conduct QAR with country in every operation once in every two years.

Policy Statement / Principles:

At Banpu;

- 1) We are 100% compliant
We fully comply with all relevant current environmental legislation and company standards as well as monitor developments and prepare ourselves for potential changes.
- 2) We ensure the continual improvement
We provide sufficient resources to develop and maintain the environmental management system with the aim of continually improving our environmental performances.
- 3) We assess and monitor about risk related environmental issues
We integrate risks management principles in every process of our businesses and develop the mitigation measures for each significant risks to prevent or reduce its impact.
- 4) We manage environmental impacts
We ensure that substances or activities posing a threat to environment are prevented from adversely affecting the environment and perform environmental impact assessment for all operational activities.
- 5) We conserve resources and efficiently use
We manage resources (specially; energy, water, and land) efficiently.
- 6) We communicate and build capacity of stakeholders
We communicate environmental aims and objectives to employees and supply chain to raise their awareness and encourage participation.
