Global Water Crisis

Be a part of solution with Power Green to create integrated water resources management across borders

Applications open today

Banpu Public Company Limited and Mahidol University's Faculty of Environment and Resource Studies invite all 10 - 11th grade students majoring in science nationwide to work together to solve the water crisis at "The Power Green Camp 8" during 20 - 27 October 2013 at Mahidol University, Salaya Campus, Nakhon Pathom. *The application period runs from today to August 15, 2013.*

Students who are interested in being part of the unified force for integrated management of water resources across borders through "The Power Green Camp 8", should submit an application form and essay (one A4-page) in your own handwriting or send a video clip of no longer than one minute on the topic of "Global Water Crisis: Be a part of solution with Power Green to create integrated water resources management across borders" to: Research Promotion and Academic Services, Faculty of Environment and Resource Studies, Mahidol University, Salaya Campus, 999 Phuttamonthon 4 Road, Salaya, Nakhon Pathom 73170, and indicate on the envelope in brackets: [The Power Green Camp Application].

Application forms can be downloaded at www.powergreencamp.com. For more information, please contact, 0 2441 5000 ext. 2110, e-mail: powergreencamp@hotmail.com, www.facebook.com/powergreencamp or <http://twitter.com/powergreencamp>. Only 70 applicants will be selected to join the camp.

Exclusive for The Power Green Camp only!

The participants selected for "The Power Green Camp" who would like to further their studies at Mahidol University's Faculty of Environment and Resource Studies will receive 'special consideration' in the interview process.
