Banpu has been driving its digital transformation journey by establishing the Digital and Innovation (D&I) unit, which brings together experts in various digital technology fields. These include the Incubation team fostering innovators to create new ideas, the Data Analytics team, the AI/Machine Learning team, the Internet of Things (IoT) team, and the Cybersecurity team, all working to integrate digital technology across the organization. Additionally, Banpu has implemented AI technologies to enhance operational efficiency, such as supporting energy trading business in Japan, optimizing supply chain management for mining operations in Australia, and assisting human resources in identifying and developing talents with specific skills.
